General and cosmetic dentistry **to make you smile**

DENTAL PLANS

The dental plans offer a simple, flexible way to pay for quality dental care. The emphasis is on a preventive approach to dental needs

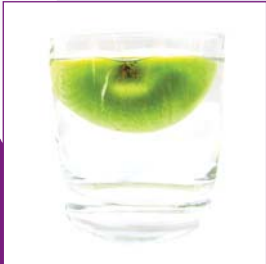

Maintenance Plan for Adults

- Two clinical dental examinations per year
- Two dental hygiene treatments per year
- Necessary dental X-rays
- Assessment of emergencies and dental pain with any temporary treatment required, carried out during normal surgery hours.
- Dental accident and emergency insurance
- 10% discount off other dental treatments

Extended Cover Plan for Adults

The maintenance plan can be extended to cover clinically necessary fillings, root fillings, extractions and crowns. This plan is available to patients who have been on the maintenance plan for a minimum of 6 months. The cost depends on previous dental history. Please ask if you wish to extend your cover.

Dental Plan for children

covers most child treatment needs for a single fee

- Two clinical dental examinations per year
- Dental hygiene and preventive treatments
- Necessary dental X-rays
- Assessment of emergencies and dental pain with any temporary treatment required, carried out during normal surgery hours.
 - Dental accident and emergency insurance
 - Fillings and extractions

How will I benefit?

We wish to maintain an independent dental practice environment that promotes best dental care for our patients. Planned visits to the dentist or hygienist will lead to problems being diagnosed earlier resulting in less complex dental treatment and less pain.

Is there a registration fee?

There is no joining fee.

How is the dental plan managed?

The dental plans are exclusively designed to our dental practice and are administered by DPAS Ltd. DPAS Ltd has been offering this service to hundreds of dental practices in the UK for the past 8 years. The accident and emergency cover is also administered by DPAS and is underwritten by A.C.E Europe S.A.-N.V.- leading underwriters of emergency dental insurance for over 12 years.

Do I need to have a dental assessment before joining?

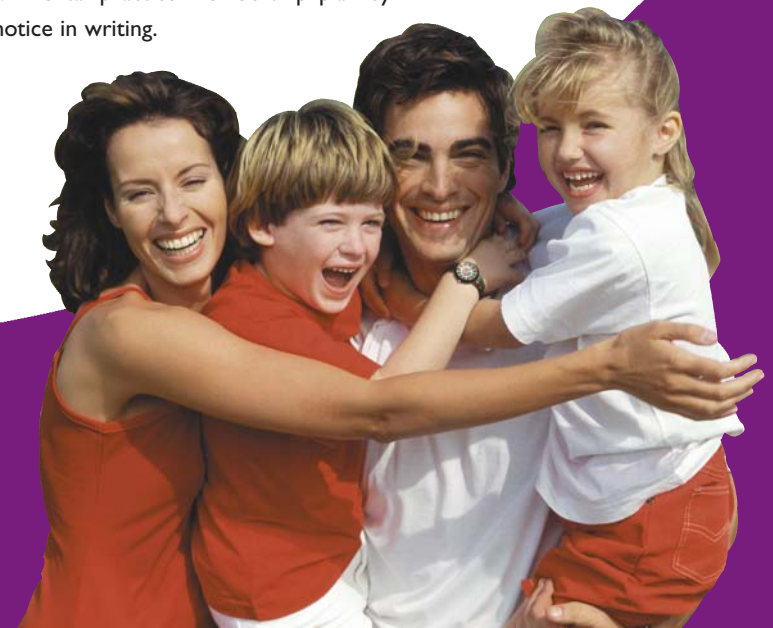

New patients and existing patients who have not attended in the previous 6 months, require an initial clinical examination. Completion of any essential dental treatment for pre-existing conditions is required.

How do I join?

It is simple. Please ask at reception. Payment may be by monthly direct debit or one annual payment in advance. Dental plan cover starts from the 1st day of the following month.

Cancellation

You may cancel your dental practice membership plan by giving one month's notice in writing.
